QUICK EXERCISE – HTML Colors and Images

Please write your HTML code using Sublime text editor and submit your file through Google Classroom. Renamed your file as followed : name_studentID

All the exercise should be written in ONE html file.

1) Add a background image for the entire page. You may use any image

2) Use the HTML image attributes to set the size of the image to 250 pixels wide and 400 pixels tall.

3) Use CSS style to set the size of the image to 250 pixels wide and 400 pixels tall.

4) Use the correct HTML to make the image become a link to https://coinsfpm.com/

5) Make an image float to the right of the paragraph. You may use any image and paragraph.

6) Write a correct HTML attribute to display the animated image (gif image). You may use any animated image.

7) Specify an alternate text for an image. The alternate text should say "Smiley". Alternate text is useful when the image cannot be displayed, like when the page is read by a screen reader.

8) Set the background color (you may use any colors name or HEX) for HTML elements for the followings:

   a. Headings 2 : "HELLO WORLD"

   b. Paragraph : Life brings us as many joyful moments as it does downfalls, and although there are days we wish there was a manual to follow, it simply wouldn't be the same without the spontaneity. The journey of life may not become easier as we grow older, but we do seem to understand it better as our perspectives evolve.

9) Add THREE headings to the document with the text "Hello". Please add border to each headings. You must use ALL three types of border (solid, dotted, dashed). You may specify you border color and size as your preference.
